

PROJECT	Project Components	Description
JTB	<ul style="list-style-type: none"> CardNet Portal Personalization Interface Table CardNet Print Util Web Interface JTB Third Party Service Processor JTBThirdPartyTaxPayerPoller CardNet License Generator 	<p>CardNet Portal: The CardNet portal is an EJB application that is hosted on JTB data center. It is responsible for communicating with SIGTAS and AFIS using the Personalization interface Table. It provision taxpayer's record to CardNet Print Util for printing.</p> <p>Production Location: 172.28.15.19:8080 on Glassfish Server. glassfish domain portal username : admin password: 123joshua410</p> <p>Production DB: 172.28.15.35 Server user name: oracle Server password: utinpa!!w0rd DB username: cardnetdb DB Password: joshua410</p> <p>Local Source: C:\Users\Openiyi\Desktop\Extracted\From Isaiah CardNet\CardNET</p>
		<p>Personalization Interface Table: This is the table responsible for aggregating tax payer information from SIGTAS and AFIS. It is accessed from CardNet portal but physically resides on SIGTAS database.</p>
		<p>CardNet Print Util: This is the software responsible for communicating with the printer for encoding and personalization. It relies on CardNet Portal to get information to encode. Fresh installation require license which is configured on CardNet Portal.</p> <p>Production Location: Across various states of the federation.</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\JCard\JCard</p> <p>NB: Installation package location "E:\Extracted\JTB Package"</p>
		<p>Web Interface: This is a web application that is designed to allow third parties validate/export taxpayer/corporate firms tax status. The solution is not fully operational as the customer complains that the requirement is not met.</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\TINValidation</p>
		<p>JTB Third Party Service Processor: This Service pushes Tax payer information to third parties.</p>

Araya

- Araya Portal
- HealthNett Enrollment Kit
- HealthNettWebService
- HealthNettToolKitServiceV2
- HealthNettSMSProcessor
- HealthNettScheduleSMSProcessor
- HealthNettPidoPaymentProcessor
- HealthNettPidoAccountCreator
- HealthNettOfflinePaymentActivator
- HealthNettKitDataSynchronizer
- HealthNettBiometricValidator
- OGCHIS Cardnet Portal
- OGCHIS CardNet Client

NB: All listed services and application uses the same database

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\JTBThirdPartyServiceProcessor
JTB Third Party Tax Payer Poller: This Service Pulls Tax record from Sigtas to a table for **JTB Third Party Service Processor** use.

Source: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\JTBThirdPartyTaxPayerPoller

CardNet License Generator: This application is used to generate license for CardNet

Source: C:\Users\Openiyi\Desktop\Extracted\From Isaiah CardNet

Araya Portal: This is the central management system for HealthNett. It is designed to manage health information system.

NB: Project Deployment configurations can be found in "Araya Servers.xlsx"

Production Location: 10.91.91.7
 C:\inetpub\wwwroot\HealthNett

Production Database: 10.91.91.6
Database Name: HealthNett2013_Live

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\WebSites\HealthNett2013

Local Database: localhost
Database Name: HealthNett2013

HealthNett Enrollment Kit: This is the application responsible for data capture of enrollees.

Production Location: Field Agents

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\Projects\HealthNett Enrolment Kit\

HealthNettWebService: This is the service responsible for pushing and receiving information from Enrollment Kit, BillBox and HCP Kit.

Production Location: 10.91.91.7
 C:\inetpub\wwwroot\HealthNettWebService

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\WebSites\HealthNettWebService

HealthNettToolKitServiceV2: This service is installed on

the kit and responsible for pulling Kit related information from the server.

Production Location: Services on Offline Kits
C:\HealthNettServices\ToolKitService

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\Projects\HealthNettToolKitServiceV2

HealthNettSMSProcessor: This service is responsible for processing SMS messages on the HealthNett Platform.

Production Location: 10.91.91.9
C:\HealthNettServices\HealthNettSMSProcessor

Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettSMSProcessor

HealthNettScheduleSMSProcessor: This service is responsible for processing Scheduled SMS messages on the HealthNett Platform.

Production Location: 10.91.91.9
C:\HealthNettServices\HealthNettScheduleSMSProcessor

Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettScheduleSMSProcessor

HealthNettPidoPaymentProcessor: This service is responsible for processing Araya payments made on PIDO platform.

Production Location: 10.10.10.3
C:\BBHealthNettPaymentProcessor\

Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettPidoPaymentProcessor

HealthNettPidoAccountCreator: This service is responsible for creating Pido Account.

Production Location: 10.91.91.9
C:\HealthNettServices\HealthNettPidoAccountCreator

Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettPidoAccountCreator

		<p>HealthNettOfflinePaymentActivator: This service is responsible for processing payments made via PIDO accounts. It activates enrollees on ARAYA based on the amount paid.</p> <p>Production Location: 10.91.91.9 C:\HealthNettServices\HealthNettOfflinePaymentActivator</p> <p>Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettPidAccountCreator</p>
		<p>HealthNettKitDataSynchronizer: This service is responsible for uploading offline records on the kits to the central server.</p> <p>Production Location: On offline kits C:\HealthNettServices\ToolKitDataSynchronizer</p> <p>Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettKitDataSynchronizer\HealthNettKitDataSynchronizer</p>
		<p>HealthNettBiometricValidator: This service is responsible for processing biometric details and checking for duplicate.</p> <p>Production Location: 10.91.91.9 C:\HealthNettServices\HealthNettBiometricValidator</p> <p>Source Location: C:\Users\Openiyi\Documents\visual studio 2012\Projects\HealthNettProjectsCollection\HealthNettBiometricValidator</p>
		<p>OGCHIS CardNett Portal: This is the web portal that service CardNett with enrollee's card for printing.</p> <p>Production Location: 10.91.91.5 http://10.91.91.5:8085/OCHISCardNet/CMS_Service</p> <p>Admin Console: http:// 10.91.91.5:4848/ Glassfish username: admin Glassfish password: password123\$</p> <p>Source Location: C:\Users\Openiyi\Documents\NetBeansProjects\OCHISCardNet</p>
		<p>OGCHIS CardNet Client: This is the application responsible for printing/encoding enrollee's card. This application</p>

BillBox

connects via webservice to **OGCHIS Cardnet Portal** to pull enrollees record for printing.

Production Location: Installed at ARAYA data center.

User name: telnet

Password: password

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\CardNet OCHIS\CardNet OCHIS

- BillBox Portal
- BBPendingTransactionProcessor
- BBMonitor
- BBQuicktellerCreditor
- BankDepositProcessor

BillBox: This is a web Portal responsible for managing integration to interswitch and 3rd parties. Current Integrations include:

1. IPNX
2. Interswitch
3. PHCN Kaduna
4. Sterling Bank
5. Zellence
6. Mobifine
7. HealthNett
8. CrestField

Production Location: <http://10.10.10.3/billbox/login.aspx>

Certificate Location:

C:\inetpub\wwwroot\billbox\PServer1.crt

NB: The file bbface.ashx contains all integration logic

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\billbox

BBPendingTransactionProcessor: This service is responsible for processing transactions that has been marked as pending from interswitch.

Production Location: 10.10.10.3

C:\BBPendingTransactionProcessor\

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\BBPendingTransactionProcessor

BBMonitor: This service is responsible for ensuring that billbox is awake (i.e does not go to sleep due to in activity. This is to ensure that transactions are processed faster)

Production Location: 10.10.10.3

C:\BBMonitor\

Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\BBMonitor

PASSIS TIME TABLE		<p>BBQuicktellerCreditor: This service is responsible for crediting PIDO subscribers who intend to credit their wallet from Quick Teller.</p> <p>Production Location: 10.10.10.3 C:\BBQuicktellerCreditor\</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\BBQuickTellerCreditor</p>
		<p>BankDepositProcessor: This service is responsible for crediting PIDO subscribers who intend to credit their wallet from a Banking Hall or via online transfers.</p> <p>Production Location: 10.10.10.3 C:\BBBankDepositor\</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\BankDepositProcessor</p>
	PASSIS Time-Table	<p>Time-Table: This is the application responsible for generation time-table for PASSIS. It pulls and pushes record to and from the PASSIS portal.</p> <p>Production Location: Client PC</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\Projects\PASSISTimeTable</p>
	Telnet Payment Collection System	<p>TPCS: This API enables collection of payments for Telnet Merchants. It integrates with GTPay for payment collection.</p> <p>Production Location: 10.10.10.20 C:\inetpub\wwwroot\TPCS</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\TPCS</p>
	Delivery Order Management System (DOMS)	<p>DOMS: This application enables placing of orders for food while accepting payment via USSD.</p> <p>Production Location: None</p> <p>Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\Projects\doms_chiken</p>
ICommex	ICommex	<p>ICommex: Icommex is the web management portal designed to manage ICommex messaging platform.</p> <p>Ozeki Messaging Server: http://127.0.0.1:9501/ username: admin</p>

STREATS		Password: password123\$ Production Location: http://10.10.10.20:8081/icommx/Login.aspx Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\icommx
	mTicketing Ministry of Transport (MOT) Internal Generated Revenue (IGR) STREATS Bank Client STREATS Pay	Source Location: C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\mTicketing C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\mot C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\IGR C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\StreatBankClient C:\Users\Openiyi\Documents\Visual Studio 2010\WebSites\StreatPay
Java Card	Java Card	Java Card: This is a java card project that replicates JTB conventional classic card. Source Location: on vmware [C:\Users\Openiyi\Documents\Virtual Machines\Windows XP Professional]
ACCIS	ACCIS	ACCIS: This is a demo application intended to automate foreign direct investment Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\WebSites\accis
ARAYA GIS	ARAYA GIS	This solution is developed based on ASP.NET MVC. It is used for ARAYA geographic mapping. Source Location: C:\Users\Openiyi\Documents\Visual Studio 2012\Projects\MapTest
